NINETY

GRID ONLY EDITION

A field manual for the ninety days after the power goes out. What to do in the first hour. How to store water, feed a house, run a bucket, and keep a fire from killing you.

Buy it before the dark. Write the names in the back. When the phone is dead, the book is the plan.

Not a government publication. Not medical advice. If you can hear officials, follow them.

A CIVIL FIELD MANUAL

NINETY

Ninety days without the grid
